ANDREW EASEY

BE (Hons) MIEAust, CPEng

Senior Civil Engineer

Andrew graduated as a Civil Engineer in 1991 and joined Sellick Consultants in 2001. He has gained considerable experience in the design and documentation of land development projects, roads and major infrastructure. He also has extensive experience in contract administration and site supervision of civil and structural engineering projects, as well as the creation and administration of quality management systems.

Qualifications

Bachelor of Engineering (Hons),
University of Technology, Sydney (1991)

Member of the Institution of Engineers (MIEAust)

Chartered Professional Engineer (CPEng)

Areas of Expertise

- Subdivision/Estate design
- Roads, intersections, roundabouts design
- Construction supervision and contracts management
- Quality management systems

Relevant Experience

Andrew has over 20 years' experience in the design, documentation and site supervision of civil engineering projects. Projects include land development design and documentation, roads and infrastructure, construction supervision, contracts administration, quality management systems, management of traffic (including vehicles, pedestrians and cyclists) and the consideration of the safety of both the public and workers on the projects. Some recent projects include:

ESTATES

Senior civil engineer responsible for all phases of design and documentation from Estate Development Plans through DA to Design Acceptance and Construction documentation. Design of all elements including water, sewer, storm water, roads and intersections, paths and cycleways, parking and bus stops.

- Ginninderra estate;
- Mt Majura estate;
- Canberra Brickworks
- Tralee estate, Hume;
- Casey 4 residential estate;
- Hamilton Rise residential estate, Yass;
- Hatton Park estate, Yass;
- Kensington Gardens, Queanbeyan (residential and commercial estate);
- Manton Park estate, Yass;

ROADS/CAR PARKS

Senior civil engineer responsible for the full design of roads, intersections, roundabouts, vergeworks, car parks and bus bays:

- Gungaharra Homestead and associated aged housing;
- Crawford Street, Queanbeyan, Lifestyle Precinct (roads and intersections);
- Downer EDI asphalt plant, Hume (roads, carparks);
- Australian Taxation Office and Volt Lane Markets, Albury;
- College Street intersection upgrade;

STORM WATER

Senior civil engineer responsible for modelling and analysis of major storm water infrastructure (pipes, structures, ponds, culverts)

- Radford College overland flows
- Casey 4 Storm water
- Hatton Park ponds;
- Nicholls Drive ponds;

COMMERCIAL AND RESIDENTIAL DEVELOPMENT

Senior civil engineer responsible for roads, car parks, verge works, drive ways, site servicing and grading

- Ikea Canberra;
- Coles Express Service Station, Queanbeyan;
- Axis Apartments, Lyneham (roads, servicing and carparks);
- Equinox Business Park, Deakin (Roads, roundabout, parking, servicing);
- Bellerive Estate, Burnie Court, Lyons (roads and roundabouts, servicing)
