ALEX McLENNAN

B.E. MIEAUST, CPENG, NER, RPEQ, ACTPE, NSWPE

Director, Civil Engineering

Alex joined Sellick Consultants as a Civil Engineer in 2013, progressing through to Directorship in 2025. Alex has gained extensive experience across all facets of civil engineering design, project delivery, and leadership. Alex's expertise spans residential, commercial, and industrial developments, with a strong focus on the planning and delivery of civil works and infrastructure for urban development and redevelopment. He has successfully managed construction superintendence and site surveillance, and has delivered integrated solutions in stormwater drainage, building services, water sensitive urban design (WSUD), and waste management. Over the years, he has built a solid track record in securing authority and utility approvals, and leading stakeholder coordination and project administration. Alex's projects includes single and multi-unit residential projects, mixed-use developments, and significant contributions to educational infrastructure. This broad and deep experience has equipped me with the technical and strategic capabilities required at a senior leadership level.

Qualifications

- Bachelor of Engineering (Civil), University of New South Wales
- Member, Institute of Engineers Australia
- National Engineering Registry
- Chartered Professional Engineer
- Registered Professional Engineer Queensland
- ACT Professional Engineer
- NSW Professional Engineer

Education
